**Sheraton Albuquerque Uptown Selected by Tesla Motors to
House First Albuquerque Area Charging Station**

01/26/15 The Sheraton Albuquerque uptown is excited to announce they have been selected by Tesla Motors to house their ONLY Albuquerque area universal charging station (compatible with both Tesla vehicles and other brands). Tesla is an existing client of the hotel, and with the Sheraton Albuquerque Uptown centrally located near both the 40 and 25 highway, it was the first choice for a charging station based on its ideal location for travelers passing through the state of New Mexico.

Tesla's mission: "To accelerate the world's transition to sustainable transport" is closely aligned with Sheraton's/ Starwood's Sustainability Initiatives, specifically the goal of reducing energy consumption: "We are committed to finding innovative ways to do more with less in a manner that makes business sense for the company. We are helping to drive sustainability efforts and build resilience by thinking about our buildings and business in a way that is agile and flexes with the changing needs of our guests, the environment and communities in which we are operating."

The Tesla Supercharger provides 170 miles of range in as little as 30 minutes. According to Tesla, "We strategically place Superchargers along well-traveled highways and in congested city centers where home charging is difficult. In addition to Superchargers, we have a growing network of charging partners with dedicated Tesla Wall Connectors at their properties. These are primarily destinations where you'd stay for several hours at a time, such as ski resorts, restaurants, hotels and others, so that you return to your car with ample range for your return trip."

The Sheraton Albuquerque Uptown offers a plethora of activities to occupy drivers while they wait for their vehicles, including full service breakfast, lunch and dinner options in the hotel, a brand new business center, and Starbucks coffee available from their Sol Café. Located in the middle of the vibrant, newly-developed Uptown Area, the hotel is just steps from all the variety that is Albuquerque, including the Uptown Business District, ABQ Uptown Living Center, and the Coronado Mall, which features dozens of restaurants, world-class shopping, and more. The Sheraton is also mere minutes from Expo New Mexico, Sandia National Laboratories, and vibrant and eclectic Nob Hill. Albuquerque International Sunport, historic Old Town, downtown, University of New Mexico, Sandia Peak Tramway, and Balloon Fiesta Park are all just a short drive away.

The property's 295 guest rooms feature contemporary styles and comforting Sheraton touches. The hotel also boasts 17,000 square feet of state-of-the-art, flexible function space, ideal for both social and business gatherings.
